

Homeroom of the Month - Grade 6

Welcome to 6th Grade

There are presently 9 students in Grade 6 from all over the world, and together we believe that this will be an exciting year for us. One new challenge that we face is that it is the first time that we have different teachers for each subject, and so it is extremely important for us to stay organised and come to all of our classes well prepared. The first weeks of school have been challenging but fun and we are confident that this year will be a wonderful experience.

Community-building is also an important part of 6th grade and the teachers will ensure a solid foundation upon which the students can build during the year.

Subject Focus - Languages

In the language classes, the new students of grade 6 learned in French how to greet people, to introduce themselves and converse about family and friends. They learned their numbers up to 20 and also the alphabet. In German, most of the students are at least at an intermediate level, so they began with a general repetition of basic structures, including interrogative and negative forms, and conjugation of both regular and irregular verbs.

Reminder!

Dates for your Diary and Upcoming events

- | | | |

| Mon | Biology Resit Club |
| Wed | Basketball |
| Thu | Football |

Events – Graduation and Family Day

Graduation

We wish our 2016 Graduates Miles Rautha, Cyril Hafen, Marysia Swietlicka and Armin Reutel lots of luck with the next chapters of their lives as they start university.

Family Day

The theme for this year's Family Day was 'Life Below the Sea', one of the United Nation's 17 Sustainable Development Goals. The Grade 7 cake raffle raised 160CHF for charity and Grade 8 Olivia Moler and Grade 2 Shubhashini Schwalm, correctly guessed how many sweets were in the Grade 9 Jar. Well done everybody!

Secondary were also lucky enough to have Mr Bergöö (who was involved in developing these goals) visit and teach us more about the ways in which we can aid in sustainable development which is an important topic for our future! We all had the opportunity to act as UN delegates!
