Studio Arta Kids Club is more than an art class — it is a journey into art and culture for children. In my sessions, I combine painting, drawing, mixed media, and storytelling with introductions to art history and visual culture, helping children understand not only how to create, but also why art matters. Ms. Gergana is a professional artist, founder of Studio Arta, and a graduate of the University of Arts in Sofia, with additional training in child pedagogy for young learners. She believes that engaging with art from an early age nurtures imagination, curiosity, and creative thinking, opening doors to new ways of seeing the world and giving children a lifelong sense of confidence and joy in expressing themselves.
