Dear Parents/Guardians

Firstly, I would like to thank you all for the way in which you have responded to the challenging circumstances resulting from the Covid-19 outbreak. Your willingness to seek and follow our advice had been much appreciated.

In order to keep you as informed as possible, I have included with this letter a matrix we are following to deal with the virus threat. It is an abridged version of the document we use in school but will hopefully enable you to understand the measures taken and the planned response should the situation escalate further.

At this stage, my main request is that should you or anyone living in your household develop flu symptoms, then please keep your son/daughter at home and alert the school to this situation. I would also advise, where possible, that you take your child's temperature each morning before they set off for school. Should the temperature exceed 38 then please keep them at home.

We continue to follow the advice of the relevant regional and national bodies, as well as receiving advice from Cognita's specialist Response Team. Although hoping for the best, we are also preparing for a further escalation, including delivery of a comprehensive online teaching programme should it be required.

We will continue to keep you updated as necessary, though please do not hesitate to get in contact should you have any questions.

Best wishes

Jonathan Taylor

Principal
